

WASHELA

WFC- 8

Washela Liquid Soap

Description

Our industrial strength liquid soap is engineered to deliver superior cleaning power, making it ideal for heavy-duty applications in manufacturing plants, workshops, garages, and other industrial environments.

Applications:

Automotive workshops
Manufacturing facilities
Warehouses
Industrial kitchens
Engineering workshops
Construction sites
Agricultural settings
Household uses

Usage Instructions:

Simply dilute the liquid soap with water according to the recommended ratio for your specific cleaning task. Apply the solution using a mop, sponge, brush, or pressure washer, depending on the surface being cleaned. Rinse thoroughly with water after cleaning.
